Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

In response to the amendment filed November 13, 2003 in which the applicant's have canceled claims 1-19, add new claims 20-38, and claims 20-38 are pending in this office action.

Election/Restrictions

1. Newly submitted claims 31-38 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Claims 31-38 are related to the originally presented claims as combination/subcombination. The inventions are patentably distinct because the combination, as claimed, does not require the particular transmitter for transmission of instructions to a second toy of the subcombination as claimed for patentability. Also, the subcombination has separate utility such as toy not requiring a transmitter for transmission of instructions to another toy or object.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 31-38 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 3714

3. Claims 20-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 20, the language, “to control a predetermined of the at least one unit by selecting a program step in dependence of how flanks, with mutual intervals that are longer than 100 milliseconds, occurred temporarily in the recorded pulse pattern” is vague and indefinite because the language of “a program step in dependence of how flanks” cannot be determined. Also, the language of “mutual intervals” is indefinite because what applicant regards as ”mutual intervals” cannot be determined.

In claim 25, the language of, “said intervals are longer than the smallest interval which a human being can produce” is vague and indefinite because the language of the intervals are longer than the smallest interval upon which applicant is comparing to cannot be determined.

Claims 24 and 25 recites the limitation "said intervals" in lines 1 and 2 of claims 24 and 25. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

4. Claims 20-30 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Response to Arguments

5. Applicant's arguments with respect to claims 20-38 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Lund '064, Dratman '927, Chainani '829, Junkin '271, and Choi '037 and '345 all disclose different types of interactive remote controlled toys.
